**SirsiDynix announces the release of Enterprise Portal Solution (EPS)
and SchoolRooms Version 2.2.2.**

Powerful platform improves performance, stability, and security.

HUNTSVILLE, Ala., July 9, 2008 – SirsiDynix, the global leader in strategic technology solutions for libraries, announced today the release of Enterprise Portal Solution (EPS) and SchoolRooms Version 2.2.2. SirsiDynix Enterprise Portal Solution and SchoolRooms 2.2.2 users will enjoy improved performance and stability, as well as improved security. Users will have the ability to link Z39.50 search results to the native OPAC in multi-library settings. Z39.50 functionality has also been updated to handle Unimarc. Version 2.2.2 is now available to current and new users of SirsiDynix Enterprise Portal and the SchoolRooms online K-12 exploration, discovery and learning portal.

SirsiDynix Enterprise Portal Solution provides a single interface to all the high-quality information, resources and services offered by a library or consortium. The product offers enhanced searching capabilities, consolidating searching of library catalogs, electronic databases, the Internet and more into a single, simple search. SirsiDynix Enterprise Portal Solution also features SirsiDynix Rooms Builder, a content management platform that allows creation of content in virtual rooms, arranged according to a site's defined taxonomy of popular subject areas, supporting addition of relevant and current information and links in each room.

SchoolRooms is a state-of-the-art Web site designed to help students explore, discover and learn, and it also features resources for parents and teachers. SchoolRooms integrates thousands of pages of multimedia content, Web links, other resources and powerful search capabilities – all organized around the K-12 curriculum. In subject-oriented “virtual rooms” of hand-selected content, SchoolRooms visitors find the relevant resources and knowledge that meet their needs, whether for writing a research paper, understanding new concepts or delving deeper into an area of special interest. The SchoolRooms parent guide is a tool parents can use to help their children learn outside the classroom.

“This release of EPS reaffirms our commitment to helping libraries highlight and deliver resources that are relevant to specific patron groups.” said Jared Oates, SirsiDynix Product Manager “Those resources may include electronic databases, catalog items, and web sites that are of particular interest.”

For more information about EPS or SchoolRooms, contact your SirsiDynix sales consultant or email sales@sirsidynix.com.

About SirsiDynix

SirsiDynix is the global leader in strategic technology solutions for libraries – vital institutions whose primary mission is to make sense of the vast world of information for people and communities. This is an exciting role as libraries assist people in discovering and using knowledge, resources and other valuable content for their educations, jobs and entertainment. In concert with key industry partners, SirsiDynix supports this strategic role for libraries by offering a comprehensive integrated suite of technology solutions for improving the internal productivity of libraries and enhancing their capabilities for meeting the needs of people and communities. SirsiDynix has approximately 4,000 library and consortia clients, serving more than 300 million people through more than 20,000 library outlets in the Americas, Europe, Africa, the Middle East and Asia-Pacific.
