

# SirsiDynix StaffWeb®

*Web-based access, wherever you are.*

SirsiDynix StaffWeb® is an easy-to-use software solution that allows unlimited staff users to perform primary circulation, cataloging and reporting tasks with the use of a standard Web browser and an internet connection. Requiring no special software to be loaded on a client workstation, SirsiDynix StaffWeb makes accessing library technology functionality simple for any member of your library staff, from any location.

#### **Easy, intuitive, accessible.**

Give your library staff access to all the tools they need, regardless of location, with the SirsiDynix StaffWeb® Web-based ILS solution. StaffWeb features streamlined wizards, incorporating many functions on a single page, and easy on-demand reporting with flexible selection and output options.

Easy and intuitive, StaffWeb is perfect for circulation clerks, part-time help and library volunteers.

With the StaffWeb Web-based ILS solution, your library gains:

- **Portability.** Staff functionality is available anywhere an internet connection is available.
- **Unlimited user access.** With StaffWeb, there is no cap on how many users can be online at the same time.
- **Simplicity of use.** Empowering full-time staff members and library volunteers alike, StaffWeb provides a simplified tool that requires much less training than the traditional workflows client.

Whether it be for use within various rotating stations within your library, or at hospitals, malls, public events, or schools, this Web-based solution provides a lot of power at an affordable price point.

Furthermore, StaffWeb makes upgrading and maintaining library system software quick and easy. Once StaffWeb's installation file is loaded onto a library's SirsiDynix Symphony® server, library staff members simply use a Web browser to access the server and perform staff tasks and transactions from any location.

Contact your SirsiDynix representative for more information on how your library can benefit from SirsiDynix StaffWeb.
