

MobileCirc

Take your library's circulation anywhere with MobileCirc. The MobileCirc app for web, Android, and iOS, helps you check out items, register users, process holds, and perform inventory without being tethered to your desk.

Take your library anywhere

Circulate materials from wherever you are. Just open MobileCirc, and scan an item with a portable Bluetooth scanner or your mobile device's camera. You can even attach an RFID scanner to your device to quickly check out materials and desensitize them on the spot.

No internet? No problem

With MobileCirc's offline mode, you can leave your building behind and promote your library on the go. Sign up new users and check out materials as you please. When you next have internet access, MobileCirc will automatically sync with your LSP databases.

"I can go to a patron's home, pull up their account, and check in the items right then and there."

Jayne Champagne | Calcasieu Parish Public Library | Louisiana

Weeding and inventory in a fraction of the time

MobileCirc makes weeding and inventory simple by freeing you from your desk. Take MobileCirc along the stacks to scan your materials, and use MobileCirc's weeding suggestions to prune your collection faster.

Simple self-service

MobileCirc comes with MobileCirc Kiosk, a basic circulation mode that restricts the app to just Check In and Check Out. You can set up self-service at minimal cost, using just MobileCirc and a tablet.

Item ID	Title	Due Date
39092043385428	The monkey box	05/08/2015,00:59
31120113248753	Little monkey business	05/08/2015,00:59

Features

- Perform basic circulation functions from anywhere, including checkins, checkouts, renewals, and adding users
- Continue circulating even without an internet connection
- Scan items with your smartphone's or tablets camera or with a handheld Bluetooth scanner (on compatible devices)
- Search for or add a user by scanning a driver's license
- Take a patron's picture with your mobile device and associate it with a user ID
- Set up a self-service area with MobileCirc Kiosk, and give patrons the ability to check items in or out without the help of a staff member
- Conduct inventory and weed your collections without being tied to your desk
