## Extend Your Reach with SirsiDynix Web Services

*Looking to customize your own system? Aiming to better meet patron interests? Check out what our Web Services can do for you.*

SirsiDynix Web Services open the doors of your library to a world of information and customization. By giving you the power to extend, manipulate, share, and present information, SirsiDynix Web Services provide developers with a variety of powerful tools needed to adapt to whatever environments they find themselves in.

[SirsiDynix Developer Community](#) provides a vibrant environment for all of our customers to build, share, and expand. Make our software your own through user-generated codes, scripts, and apps available for your reference and use. With a community of developers around you, there's no telling what you'll come up with.

So, whether you'd like to customize catalog searches or change the way you manage holds, Web Services are at the complete disposal of your imagination. To find out more, check out our Web Services SDK on our [Customer Support Site](#).

### Upcoming Webinars

From Web Services to webinars, SirsiDynix is committed to providing our customers with the information and tools they need to succeed.

Check out our upcoming webinar on October 16 to learn how to generate your library account summary reports each day to all patrons who have outstanding bills. The webinar will take place at 8 am PT / 11 am ET and will be hosted by Mentor administrator, Becky Muller. Interested in joining? Register [now!](#)
