SirsiDynix Symphony® 3.4.1 service pack 1 brings MSSQL platform performance improvements, single sign-on authentication and more

Enhancements to MSSQL reports, CAS and Electre Content on 3.4.1 service pack 1 features.

LEHI, UTAH (April 11, 2012) – SirsiDynix, the world’s leading provider of library automation solutions, today announced the service pack one release to SirsiDynix Symphony® 3.4.1, the company’s flagship integrated library system. SirsiDynix Symphony, the most comprehensive ILS available in the industry, features state-of-the-art modules for all the functionality a library needs. Service pack 1 builds upon this platform with numerous efficiency-enhancing features including the ability to print direct from item search and display.

“As the core of our library automation technology, SirsiDynix Symphony continues to provide libraries with the comprehensive functionality they need for day-to-day library management,” said SirsiDynix Chief Executive Officer Bill Davison.

A few highlights from the enhancements in Symphony 3.4.1 service pack 1 include:

- **MSSQL platform** improvements with substantial performance gain on some key reports;
- **Single sign-on** support for e-Library using CAS;
- **Electre integration** with options for content in French;
- **Direct printing** of results from an Item Search and Display screen;
- **International SMS** with support for SMS notification outside of North America;

Symphony 3.4.1 service pack 1 delivers a full suite of upgrades to give SirsiDynix libraries even greater efficiency and flexibility in these operations. For more information on the SirsiDynix Symphony ILS, visit www.sirsidynix.com/products/symphony.

###

About SirsiDynix

SirsiDynix connects people with knowledge at more than 23,000 libraries around the world. Through library management technology and search and discovery tools, libraries using SirsiDynix technology bring relevant resources and the power of knowledge to their users and communities. SirsiDynix technology is architected to be open, scalable and robust, offering a complete solution out-of-the-box, and unparalleled flexibility through APIs and web services. Complemented by the most experienced training, consulting and support staff in the industry, SirsiDynix helps libraries create tomorrow’s libraries, today. www.sirsidynix.com
