October 20, 2025, LEHI, UT— SirsiDynix, a leading provider of library technology, is pleased to announce that Celina Public Library has selected Symphony as their new integrated library system (ILS).

Located in Celina, Texas, Celina Public Library serves more than 65,000 residents—and their community continues to grow. Between 2022 and 2023, Celina's population increased by 26.6%. Now, the city, considered one of the fastest growing in the nation, plans to open a new library in 2026-2027.

As Celina Public Library expands their services in preparation, the Symphony ILS offers process efficiency, innovative technology, and extraordinary customer service. Complementary SirsiDynix products—like Enterprise, a robust discovery platform, and BLUEcloud Mobile2, a next-gen mobile application—provide even more ways for Celina to reach and connect with their booming patron base.

"We chose this software package because it delivers an exceptional balance of customer service, intuitive design, and cutting-edge technology. It empowers our team to work smarter and serve our customers better—every interaction, every time," says Celina Public Library Director Andrea Ortiz.

"At the heart of our mission is a commitment to providing exceptional service to every library patron. We strive to create a welcoming, accessible, and innovative environment where knowledge, community, and discovery come together. By combining personalized support with modern tools and resources, we ensure that every visitor experiences the highest standard of public library service," Ortiz adds.

"We are thrilled to partner with Celina Public Library at this pivotal moment for both the library and the city of Celina," states Mike Nehren, Executive Vice President of SirsiDynix. "We believe deeply in the library's bright vision for the future, which centers an enriched, informed, and interconnected community. We are honored to join Celina Public Library on this journey, and we look forward to seeing all they accomplish—for library staff, for patrons, and for the citizens of Celina—in the years ahead."
