March 18, 2026, LEHI, UT—SirsiDynix, a leading provider of library technology solutions, and Springshare, a premier cloud software vendor for libraries, today announced a strategic partnership to expand access to each company's robust suite of products.

Based on a shared commitment to uplifting libraries and their patrons, the partnership will bolster the companies' joint marketing efforts and introduce SirsiDynix and Springshare products and services to a wider audience.

What this means for SirsiDynix and Springshare customers:

- SirsiDynix ILS customers can purchase several of Springshare's market-leading patron engagement tools through their SirsiDynix contract. These tools include LibCal, a fully featured calendaring platform; LibMaps, a multipurpose wayfinding tool; and LibConnect Pro, a first-of-its-kind patron relationship management system. Back-end integration between Springshare's tools and SirsiDynix ILS platforms ensures a seamless patron experience.
- Content integration between SirsiDynix's CloudSource, an OA-forward shared content and discovery services platform, and Springshare's LibGuides, a comprehensive library content management system. CloudSource's rich open access content and open educational resources can be easily embedded into subject and course guides in the LibGuides platform.
- SirsiDynix and Springshare will actively evaluate and pursue additional integrations between their platforms, offering shared audiences exciting new options and flexibility.

"Since 2007, Springshare has helped thousands of libraries elevate their online services and increase patron engagement," says Talia Richards-Resendes, Springshare's VP of Marketing and Communications. "We're excited to partner with SirsiDynix to further advance that mission and help even more libraries reach their engagement and growth goals," adds Ms. Richards-Resendes.

"For years, we've collaborated with Springshare to deliver seamless connections through our Web Services API—and we've admired their unrelenting commitment to libraries every step of the way," Senior Vice President of Sales and Marketing Eric Keith states. "We are thrilled to begin this next iteration of our partnership, and together, we look forward to exploring new ways to support and empower library professionals everywhere."

Interested in learning more about the partnership and the opportunities it presents? Visit SirsiDynix (booth #1122) or Springshare (booth #310) at PLA 2026 in Minneapolis this April 1–3.

About Springshare

Springshare helps libraries and educational institutions elevate their online presence to better serve and engage their users online. Founded in 2007, Springshare serves over 7,500 institutions across more than 100 countries. To learn more about Springshare, visit <https://springshare.com>.

About SirsiDynix

SirsiDynix believes in the power of libraries. Transforming and shaping their communities every day, that power inspires us to connect people with knowledge at more than 20,000 libraries worldwide. SirsiDynix technology combines relevant resources with the Best Library User Experience (BLUE). With our Best-of-Breed approach, SirsiDynix gives libraries the greatest and most expansive range of options for their software. Complemented by the most experienced training, consulting, and support staff in the industry, SirsiDynix helps libraries to reach their highest potential while serving their communities.
